📍 Kerala, India

Career Objective

Bachelor of Technology graduate in Information Technology with hands-on experience in Python, Django, React.js, JavaScript, SQL, and Full-Stack Web Development. Developed multiple web applications, REST APIs, and database-driven solutions through academic projects and internship experience. Proficient in building responsive user interfaces, implementing backend functionality, and managing databases. Strong problem-solving, teamwork, and communication skills with a passion for developing scalable software solutions and learning emerging technologies.

EDUCATION

APJ Abdul Kalam Technological University(MEA EC)

Bachelor of Technology in Information Technology

CGPA:7.44

june 2022 - 2026

TECHNICAL SKILLS

- **Programming Languages:** Python, C, JavaScript
- **Frontend:** React.js, HTML5, CSS3, Bootstrap
- **Backend:** Django, Rest APIs
- **Database:** SQL, MySQL, PostgreSQL, MongoDB, SQLite
- **Operating Systems:** Windows, Linux (Ubuntu/Red Hat)
- **Tools & Technologies:** Git, GitHub, Firebase, Microsoft Office 365, VS Code, Postman
- **Soft Skills:** Problem Solving, Team Collaboration, Documentation, Time Management, Adaptability

PROJECTS

Bidirectional Sign Language Translator App :(Final Year Project)

Python, Django, Machine Learning, Computer Vision

Developing a web and mobile application to convert sign language into text/speech and vice versa. Integrating machine learning and computer vision models for gesture recognition.

AI Dietitian & Mental Health Tracker:

Python, Django, HTML, CSS, Bootstrap, MySQL

Built an AI-based health monitoring system using machine learning and data analytics to provide personalized diet recommendations and track mental health indicators through user inputs and behavioral data.

BabyLoops – E-Commerce Website:

Python, Django, HTML, CSS, Bootstrap, MySQL

Built a full-stack e-commerce website for handmade crochet baby dresses, shoes, headbands, and accessories using Django. Implemented user authentication, product catalog, shopping cart, and checkout functionality. Designed database models for products, customers, carts, and order management using SQLite.

CERTIFICATION COURSE

Advanced Python Full Stack Development

March 2025 – May 2026

IPCS Global, Perinthalmanna

Developed and deployed 3 full-stack web applications using Django, React.js, HTML, CSS, and JavaScript. Designed and integrated REST APIs for user authentication, product management, and data processing features. Managed databases and implemented CRUD operations, ensuring accurate and efficient data handling. Collaborated using Git/GitHub for version control and project management throughout the development lifecycle.
